SUMMARY

A well-rounded front-end developer who recently made a career change into the tech industry. I am a hard-working, inquisitive, organized, and highly resourceful individual who is looking for an opportunity to showcase my skills.

EDUCATION

Wayne State University, Bachelor of Science, **May 2016**

Grand Circus Detroit, Front-End Development Certification, **January-March, 2018**
10-week full-time coding program

Final Project github.com/mfahad24/MovieFinder

→ Responsive web app that allows user to return movies based on genre, rating, length, and year. Built using HTML, CSS, JavaScript, and jQuery on Angular framework.
