WORK EXPERIENCE

Front End Engineer
Cherokee Federal

07/2024 - Present   *Detroit, MI (Remote)*

- Demonstrated versatility by successfully taking on multiple roles beyond front-end development, including back-end engineering, production support, and security defect resolution, adapting quickly to shifting team needs.
- Oversaw the enablement and disablement of critical user messages on IRS.gov, directly impacting the experience of approximately 2.4 million daily users during high-traffic tax periods.

Solution Specialist/Front End Engineer
Deloitte

01/2023 - 07/2024   *Detroit, MI (Remote)*

- Developed a Proof of Concept utilizing React, Node, Express, and GraphQL within a microservices architecture. Contributed to the design and implementation of the architecture, showcasing proficiency in these technologies.
- Contributed to the IRS Business Online Account feature, building scalable UI components and maintaining high code standards for a platform impacting millions of U.S. businesses. Ensured production stability through proactive bug fixes and collaboration on front-end best practices.

Software Engineer
Elektrobit Automotives of America, Inc.

08/2019 - 12/2022   *Farmington Hills, MI*

- Built React-based applications for Ford's SYNC 4 infotainment system, supporting millions of vehicles. Handled PR reviews and resolved hardware integration issues to enhance performance and stability.

Junior Front End Developer
Campbell Ewald

01/2019 - 08/2019   *Detroit, MI*

- Contributed as a Front-End Engineer to Union Bank's site redesign, collaborating with QA, creative, and backend teams to deliver a user-friendly, high-performance platform.

EDUCATION

Javascript Full Stack Bootcamp
Grand Circus

01/2018 - 03/2018   *Detroit, MI, USA*

Bachelor of Clinical Lab Science
Wayne State University

09/2011 - 05/2016   *Detroit, MI, USA*
